Important Information

All prices quoted in this catalogue are subject to change without notice. We are listing herewith those varieties of Sweet Peas and Snapdragons as well as a miscellaneous list of seeds for the Florist and have selected such varieties as we feel are the best for Commercial growers. Any varieties not listed can be supplied at market prices—write for quotations.

SWEET PEAS

New Novelties for 1941

"SPARKS" is a large flowered variety, with a broad yet daintily frilled standard. SPARKS is a heavy producer of long, stout stems, each bearing four flaming blooms. The color is a sparkling shade of bright orange scarlet. We feel that SPARKS will soon be listed as the most popular orange-scarlet color in the Winter Flowering class of Sweet Peas.

"TOPS" is a beautifully duplexed Sweet Pea of a delicate rose pink color. From its clear white base it achieves that certain brightness of tone, which combined with a soft salmon sheen, serves to enhance its decorative value for any floral occasion. We would describe this color as a bright salmon rose. Produces five to six flowers to the stem. TOPS makes vigorous growth and produces unusually long straight stems.

"GARDENIA"—synonymous with fragrance and velvety whiteness. GARDENIA in a dense paper white, having large ruffled flowers with good substance for shipping. The intricate duplexing of each bloom makes a mass effect of solid white that will achieve quick favor with all Florists. GARDENIA is easily grown, is a white-seeded variety and is especially well suited for cut flower use.

"RHUMBA" is all that the name implies—a colorful personification, gaiety and vividness in a gorgeous new Sweet Pea. RHUMBA is a glistening golden cerise, large flowered and deeply duplexed. RHUMBA is a heavy producer throwing husky stems of four well spaced flowers.

Price:— 1/2 Oz., 85c; 1 Oz., \$1.50.

SWEET PEAS

Newer and Outstanding Varieties

Ball's Orange Improved, early flowering pure orange.
1 Oz., 35c; 4 Oz., \$1.20; 1 Lb., \$4.00.
